PROJECTS

A mini project "Credit card eligibility checking"

This mini project is developed using C programming language to check whether a person is eligible for a credit card or not. The program uses if-else conditional statements to evaluate user details such as age, monthly income, and employment status. Based on the given conditions, the system displays whether the user is eligible or not.

ACHIEVEMENTS & CERTIFICATIONS

Introduction to C Programming - SoloLearn certificate
Completed fundamentals of C programming including variables, data types, operators, and if-else statements.
